

Horse shoeing is a unique profession and those who do this job support each other in various ways. John Sitter, who has been a farrier for 23 years discovered how supportive they could be. On July 28, 2006, John had a quadruple bypass. A group of farriers have come together and are shoeing John's clients' horses and all proceeds go to John. John does not know some of the horse shoers who are volunteering to do this.

On August 5, 2006, 34 head of horses were shod at Sitter Downs. Back breaking work!!!!!!!!!!!!!!
